Somerville, MA | nehaps29@gmail.com | (781) 827-1084 | [linked.com/neha-sabannavar](https://www.linkedin.com/neha-sabannavar)

OBJECTIVE

Experienced software developer seeking employment REACT.

SUMMARY

- Master of Science in Information Technology candidate with 10+ years of experience in IT industry as Software Engineer and Analyst. Experienced developer and support analyst with a demonstrated history of working in banking, finance and healthcare industry.
- Expert in ETL Testing, Informatica (9.1), DataStage (px.8) development and Shell Scripting.
- Skilled in Python, PL-SQL (Oracle 8i), Android development, JavaScript.
- Skilled in Python-Pandas and matplotlib.
- Skilled in MERN Stack development
- Working experience in all phases of SDLC with Agile/Waterfall methodologies.

Additional technical strengths (github.com/Nehaps29):

Reporting Tools: Moody's Reporting for Corep, OBIEE reporting.

Database Management Tool: Toad, Oracle SQL Developer, Teradata, Linux

Utilities: Putty, Git, Quality Center 11, Jira, WinSCP, Control M, React, Mongo

PROFESSIONAL EXPERIENCE

AG Mednet, Inc. Boston, MA

Software Engineer

June 2019 - Present

- Providing feedback on product features and effectiveness for requirements specifications in an Agile SCRUM setting
- Translating specific business rules and procedures into appropriate business logic components for building APIs and ETL workflow
- Evaluating workflow and increasing efficiency of data pipelines using python and SQL
- Utilizing databases that harvest data from a variety of sources.
- Identifying and recording bugs, documenting in JIRA and SVN
- Working closely with Test team members, providing effective communication with clients.
- Balancing workload between multiple project and mentoring junior team members

Credit Suisse/Cognizant Technologies, Pune, India

Software Engineer

Jan 2015 - May 2016

- Implemented application fixes using Java, JavaScript and SQL-Server.
- Attended daily stand-up calls and provided estimation in story points for allocated tasks.
- Provided 24/7 support during release deadline. Coordinated communication between on-site and off-shore teams.
- Managed development, testing, and production environments for code deployments with Release Management team (RMS).
- Efficiently resolved environment-related issues (e.g. files/data migration and mapping, updating schemas with correct version of code, etc. to meet deadline.)
- Created automated scripts using Selenium for web application testing, validating UI elements and validating OBIEE report data that was passed through the web application.
- Deployed and executed Informatica jobs to populate reporting data for UAT before production release.

HSBC Software Development (India) Private Limited, Pune, India

Software Engineer

Nov 2011 - Jan 2015

- Created test data for verifying code correctness.
- Executed Control-M jobs for sanity checks, executed data stage code. Reported test progress and provided defect reports through Quality Center.

- Monitored time management, set priorities of the tasks and defects.
- Ensured test execution metrics were updated, escalated issues as necessary and lead defect reviews .
- Participated in UAT test planning

Sankalp Computers and Systems, Pune, India

Trainee Software Engineer

Jan 2011 - Nov 2011

- Understood user requirements, wrote test scenarios on those requirements.
- Wrote test cases with reference to test scenarios and executed them.

EDUCATION

Full Stack Coding Bootcamp (MERN), Rutgers University (online)

Expected completion: Dec 2023

Bentley University, Waltham, MA, USA

Master of Science in Information Technology

GPA: 3.37 May 2019

Mumbai University, Mumbai, India

Bachelor of Engineering, Electrical

Aug 2010
